

MILK FILTERS

High performance stainless steel filters

ENSURE OPTIMUM MILK QUALITY

Precision built top loading milk filters with 3A accreditation ensure every unwanted particle is captured.

Single use, 80 micron paper sleeves are both economical to use and biodegradable.

* Number of filters required depends on herd size

SPECIFICATIONS

- Filters comply with the relevant regulations
- A choice of 38, 50 or 63mm connections
- Wire cage with two rubber retainers
